Re: 2018-2019 Science Lab Fees

The Science Department at Our Lady of Prompt Succor purchases all of its lab equipment and materials, as well as both consumable and non-consumable supplies from the lab fees it collects each year. In order to be able to run the state mandated laboratory science classes that are a part of your child's curriculum requirement, it is necessary for us to collect an **annual \$20.00 lab fee**.

We will begin collecting the lab fee on Check-in Day, Saturday, August 11, 2018.

Please bring \$20.00 cash beginning on the above date. You will be given a receipt at the time of collection. We are unable to accept either CREDIT/DEBIT CARDS OR PERSONAL CHECKS.

If your child does not have the fee by Friday, August 13,2018, he/she will be issued a Financial Obligation at that time. Failure to pay the lab fee will result in the student receiving alternative assignments on lab days.

Financial Obligations can be cleared through the Finance Office with Ms. Michelle Clements.

Thank you for your continued support and cooperation in building the OLPS Science Department into the academic success we all envision for our students.

Sincerely,

Carl J. Dermady, Jr.,M.Ed.
Assistant Principal
